Interactive Web CV (HTML): <https://rubenbarrios-bigdata.github.io/cv-ejecutivo-inteligente/>

PROFESSIONAL SUMMARY

Data Analyst with over 4 years of experience analyzing fraud metrics in the logistics and e-commerce sectors, and over 15 years of experience in the banking sector, specifically in Foreign Trade and International Operations.

I combine business experience with tools such as Power BI, Excel, SQL, and Python to extract, transform, and visualize data that translate into evidence-based decisions. I also bring experience in digital analytics using tools such as GTM, GA4, BigQuery, and Data Studio, applying that same analytical approach to user behavior analysis and product KPI tracking.

TECHNICAL SKILLS

Data Analysis & BI:

- Power BI (DAX, Power Query, data modeling, interactive reports)
- SQL (MySQL) — queries, joins, aggregations, data analysis
- Python (pandas, NumPy, Matplotlib, Colab, VSCode) — data analysis
- Advanced Excel and Google Sheets — pivot tables, complex formulas

Visualization & Reporting:

- Design of Power BI dashboards, KPIs, fraud reports, financial analysis, HR and sales reporting
- BigQuery, Firebase, Google Analytics 4 (GA4), Google Tag Manager (GTM). Data Studio.

Applied AI Tools:

- ChatGPT, Gemini, Copilot, Claude, NotebookLM, Make

Languages:

- Spanish (native)

WORK EXPERIENCE

Webpack S.R.L — Mercado Libre Logistics | Buenos Aires, Argentina

Mar. 2020 – Oct. 2024

E-Commerce Fraud Prevention and Claims Analyst

- Analyzed fraud metrics and tracked KPIs through Power BI and Excel dashboards, contributing to a sustained reduction in financial losses.
- Designed and implemented a real-time claims monitoring system, positioning the company as the logistics provider with the lowest fraud ratio in the market.
- Prepared fraud reports using data analysis and visualization tools to detect patterns and anomalies.
- Implemented controls and early fraud detection processes, ensuring operational continuity and compliance with market standards.
- Coordinated cross-departmental efforts with operations and security teams to optimize alert response processes and reduce incidents.

Achievement: Real-time monitoring system with direct impact on loss reduction — benchmark for the logistics market.

BFC Banco Fondo Común | Caracas, Venezuela

Jul. 2010 – Dec. 2017

Foreign Trade Specialist — VP International Operations

- Managed end-to-end import operations through letters of credit, documentary collections, and avalized drafts.
- Managed accounting subledgers, reconciliations, and regulatory compliance for international operations.

Banco Exterior S.A. | Caracas, Venezuela

Jun. 2006 – May 2010

International Operations Analyst — VP International Operations

- Processed and controlled foreign-currency international operations, managing imports and settlements.

Banco Venezolano de Crédito | Caracas, Venezuela

Sep. 2002 – Mar. 2007

Purchasing Analyst / Sales Representative

- Managed cash handling, budgeting, and asset acquisition. Acquired and retained clients while consistently meeting sales targets.

EDUCATION AND CERTIFICATIONS

Ongoing Education:

- Associate Degree in Data Science and Artificial Intelligence (1st Year).
- Power BI DevOps: PBIP, Git, CI/CD, and Microsoft Fabric.

Certifications:

- Digital Analytics: Google Tag Manager, Google Analytics 4, and Data Studio.
- Introduction to Programming with Python.
- Data Analysis: Excel, Power BI, SQL, Python.
- AI Applied to Work: ChatGPT, Copilot, Gemini, Make.
- AI Fundamentals — IBM SkillsBuild.
- Teamwork in the Workplace — Ministry of Education, City of Buenos Aires (GCBA).
- VIP Participant — Intensive Remote Work Training.
- AI in Practice for the Workplace.

University Education:

- B.A. in Materials and Financial Resources Administration — Univ. Simón Rodríguez, Caracas, Venezuela
- Associate Degree in Physical and Financial Resources Administration — Col. Univ. Fermín Toro, Caracas, Venezuela

DATA ANALYSIS PROJECTS

- Mate-Mático – Data Analytics (Innova Lab).
-(Jul. 2026 – Aug. 2026 | MVP Project)
-Implemented digital analytics with GTM, GA4, Firebase, Supabase, PostgreSQL.
-Designed a Looker Studio dashboard with usage, retention, and progress KPIs.
-Defined and validated events together with the Backend and QA teams.
-Integrated the dashboard within the application via embedding.
- Customer Service Dashboard — Power BI with DAX and service metrics
- HR Report — Power BI: headcount, turnover, and performance analysis
- Video Game Sales Analysis — Power BI + SQL on real dataset
- Global Indicators Analysis — Power BI + DAX + data modeling
- SQL Orders Project — SQL on real dataset
- Exploratory Data Analysis (EDA) — Python + pandas + Matplotlib + Big Data
