PROFESSIONAL SUMMARY

Data Analyst with demonstrated experience analyzing fraud metrics in e-commerce logistics and last-mile fulfillment, complemented by over 15 years of solid experience in the banking sector, international business, and corporate finance. Today, I combine that strategic mindset with a solutions-oriented approach to transform business requirements into high-impact analytical solutions through dashboard design in **Excel and Power BI**, **SQL queries (MySQL, PostgreSQL)**, automation with **Python (pandas)**, and digital product analytics with **GTM, GA4, BigQuery, and Data Studio**.

Proven track record of business metric optimization, highlighted by an **80% historical reduction in the fraud loss ratio (from 0.150% to 0.030%)** in high-volume operations through continuous metrics monitoring. Analytical mindset oriented towards evidence-based decision-making and cross-functional collaboration with Product, Backend, and Operations teams.

TECHNICAL SKILLS AND STRENGTHS

Data Analytics & BI:	Power BI (Advanced DAX, Power Query, dimensional modeling, PBIP), SQL (MySQL, PostgreSQL: complex queries, subqueries, aggregations), Python (pandas, NumPy, Matplotlib, Colab, VSCode), Advanced Excel (pivot tables, complex formulas).
Visualization & Product:	Looker Studio, Google Analytics 4 (GA4), Google Tag Manager (GTM), Supabase, Firebase, BigQuery, executive KPI design, user retention, engagement, funnel and conversion tracking.
Business & Methodologies:	Fraud Prevention, Anomaly Detection in Logistics/E-Commerce, Finance, International Trade, Git/GitHub, CI/CD for BI, Agile/Scrum, Generative AI (ChatGPT, Copilot, Gemini, Claude, Make).

WORK EXPERIENCE

Innova Lab — Mate-Mático Project
Data Analyst & Digital Analytics Specialist (MVP Project)

Buenos Aires, Argentina
Jul. 2026 – Present

- **End-to-End Data & Analytics Architecture:** Designed and deployed product analytics and event-tracking infrastructure from scratch for the Mate-Mático educational platform.
- **Database Modeling & Querying:** Structured and queried relational schemas in **Supabase (PostgreSQL)** and Firebase to track transactional events and user behavior metrics.
- **Advanced Event Tracking:** Configured and validated tracking tags, triggers, and custom parameters using **Google Tag Manager (GTM)** and **Google Analytics 4 (GA4)** in close alignment with Backend and QA teams.
- **Product Executive Dashboards:** Built real-time interactive dashboards in **Looker Studio** embedded inside the application, monitoring user retention, academic progression, and conversion KPIs.

Webpack S.R.L. — Official Mercado Libre Logistics Operator
Data Analyst | Fraud Prevention | E-commerce Logistics & Last-Mile

Buenos Aires, Argentina
Mar. 2020 – Oct. 2024

- **Key Business Impact:** Achieved a historic **80% reduction in the fraud loss ratio (from 0.150% to 0.030%)**, establishing Webpack as the benchmark logistics operator across Mercado Libre's entire network.
- **Anomaly Detection & SQL Analysis:** Queried, transformed, and cleaned operational transaction data using SQL and automated reporting to identify systemic fraud patterns and mitigate direct financial losses.
- **Business Intelligence & Control Dashboards:** Designed, automated, and maintained interactive dashboards in **Power BI (DAX)** and advanced Excel models for end-to-end tracking and high-volume claims/incident analysis.
- **Operational Process Optimization:** Coordinated with dispatch, warehouse, and asset protection teams to establish early-warning response protocols driven by data evidence.

WORK EXPERIENCE (CONTINUED)

Banking & Financial Sector (BFC / Banco Exterior / BVC)

Caracas, Venezuela

Foreign Trade, International Operations & Corporate Finance Specialist

2002 – 2017

- **Foreign Trade & International Operations (BFC / Banco Exterior):** End-to-end import management via commercial letters of credit, documentary collections, foreign currency settlements, and funds traceability.
- **Financial Auditing & Reconciliations:** Supervised accounting subledgers, handled multi-currency bank reconciliations, and audited financial data under strict regulatory compliance frameworks.
- **Procurement & Commercial Sales (Venezolano de Crédito S.A.):** Budget administration and operational asset acquisition; teller cash management, client retention, and consistent achievement of sales targets.

KEY DATA ANALYTICS PROJECTS

- **Mate-Mático – Digital Analytics & Product (Innova Lab):** Comprehensive event tracking with GTM & GA4, transactional event persistence in Supabase (PostgreSQL), and Looker Studio dashboard for funnel and retention optimization. [\[View on GitHub\]](#)
- **Customer Service Dashboard (Power BI + DAX):** Interactive dashboard optimizing customer support operations: tracking ticket volume, first-response time, resolution SLA, and service metrics with custom DAX measures. [\[View on GitHub\]](#)
- **HR Analytics Dashboard (Power BI + DAX):** Workforce analytics covering headcount trends, voluntary/involuntary turnover, demographic distribution, and performance evolution for strategic People Analytics decisions. [\[View on GitHub\]](#)
- **SQL Orders & E-Commerce Analysis:** Exploratory and transactional analysis over real sales datasets in MySQL using subqueries, groupings, and aggregation functions to evaluate sales KPIs and profitability margins. [\[View on GitHub\]](#)
- **Exploratory Data Analysis (EDA) in Python:** Data cleaning, outlier treatment, and multivariate statistical analysis using pandas, NumPy, and Matplotlib/Seaborn visualizations over datasets at scale. [\[View Repository\]](#)

EDUCATION & QUALIFICATION

- **Associate Degree in Data Science & Artificial Intelligence** — In Progress (1st Year) — Higher Technical Training Institute | Ministry of Education, City of Buenos Aires (GCBA)
- **Business Intelligence (BI Consulting)** — In Progress (2nd of 3 terms, official learning path toward Data Analytics) — Talento Tech | Ministry of Education, City of Buenos Aires (GCBA)
- **Power BI DevOps: PBIP, Git, CI/CD, and Microsoft Fabric** — In Progress — Udemy
- **Bachelor's Degree (Lic.) in Material & Financial Resources Administration** — Simón Rodríguez National Experimental University | Caracas, Venezuela
- **Associate Degree (T.S.U.) in Physical & Financial Resources Administration** — Fermín Toro University College | Caracas, Venezuela

CERTIFICATIONS

- **Digital Analytics: Google Tag Manager, Google Analytics 4, and Data Studio** | *Analytics Way*
- **Data Analysis: Excel, Power BI, SQL, and Python** | *Datax*
- **Artificial Intelligence Fundamentals** | *IBM SkillsBuild*
- **Introduction to Programming with Python** | *Talento Tech* — Ministry of Education, City of Buenos Aires (GCBA)
- **Applied AI in the Workplace: ChatGPT, Gemini, Copilot, Make** | *Datax*

LANGUAGES

- **Spanish:** Native | **English:** Technical / Professional reading & comprehension of data and documentation.
